

# EdgeX Foundry Core Working Group

(plus QA/Test, System Management and UI)

18 October 2022

## ATTENDEES

### Participants (6)

-  Cloud (IOTech) (Host, me)
-  Lenny - Intel
-  Rodney Hess (Beechwoods)
-  Cece Shen
-  Jim White
-  Melody Liu

## AGENDA

### TAF Status

- Functional tests:
  - Non-Security **606** tests - 2 cases failed due to [#4190](#) IntervalAction is still created, even the interval is not existed
  - Security **606** tests - 2 cases failed due to [#4190](#) IntervalAction is still created, even the interval is not existed
- Integration tests:
  - Non-Security **55** tests - all passed
  - Security **58** tests - all passed

- Performance tests:
  - Non-Security **10** tests - all passed
  - Security **10** tests - all passed

## QA Progress

- Implemented App Service Metrics tests
- Implement tests for Device System Event works in progress
- Preparing test scenarios for north-south messaging
- Backward compatibility test is pending

## Core Progress

- North-south messaging feature is almost done

## Any Other Business

- Stop merging dependabot for third party libraries
- Lenny will update the compose files to pin the third party service version

## Ticket Status

### Core WG [\[Project Board\]](#)

- edgex-go
  - New issues
    - [#4190](#) IntervalAction is still created, even the interval is not existed
  - Fixed issues
    - [#4184](#) feat: Enable common security secret service metrics
    - [#1973](#) .dockerignore file should include .git/ directory
    - [#4183](#) Refine the default messaging topics in core-command
    - [#4180](#) Use RequireMessageBus config instead of MessageQueue.Required

- edgex-compose
  - Fixed issues
    - [#299](#) UI no longer accessible via localhost in browser
- go-mod-bootstrap
  - Fixed issues
    - [#375](#) Unable to remove config provider by environment variable
    - [#379](#) Failed to deploy security EdgeX with error "MetricsManager not available"
- edgex-ui-g
  - Fixed issues
    - [#541](#) Replace use of gopkg.in/mgo.v2/bson with github.com/google/uuid
- edgex-docs
  - Fixed issues
    - [#877](#) feat: Document new common service metrics

## QA/Test Issues [\[Project Board\]](#)

- edgex-taf
  - In progress issues
    - [#695](#) Implement automation test for device system event
    - [#594](#) Regression test needed for delayed-start service ADR
  - Fixed issues
    - [#682](#) Additional App Service metrics automation tests in Levski
- edgex-taf-pipelines
  - In progress issues
    - [#109](#) [BCT] App services and device services use Jakarta and core services use Lavski

## NOTES

-
