Device and Device SDK Working Group

Notes for February 7 2022

Client location from registry

- PR vs device-sdk-go is in draft state, pending the PR vs go-mod-bootstrap landing

CoAP secret store use

- Minor updates still required

Format for Array values in Readings

- Will update the ADR and the CSDK to match the Go SDK behavior
- Implement a build-time flag on the CSDK for bug-compatibility with older versions

Next meeting

- Next two weeks will be cancelled – next meeting 28th Feb
