Old Business

1. System Management Service
    a. Kanban Review (https://github.com/orgs/edgexfoundry/projects/29)

Items to Follow Up

1. CLI Review (Mike, Intel)
    a. https://github.com/edgexfoundry-holding/edgex-cli/issues/114
    b. Alex has addressed some of the feedback.
    c. Alex intends to leverage URLs from go-mod-core-contracts.
    d. Discussion ensued around using go-mod-core-contracts clients; Alex intends to use them.
    e. Alex will provide update to Mike for his review and subsequent readout to working group at next week's meeting.
2. EdgeX-specific system-wide metrics follow-up (Jim White, IOTech)
    a. Jim has started on a document.
    b. Still has feedback from security and device services; has initial but still looking for follow up.

      c.   Some preliminary discussions around design.

      d.   A week or two out from having something to share with the working group.

New Business

1. Other new business?
