

4/4/22

Attendees:

Others may have joined after attendance was captured.

Agenda

- Web stats
- Upcoming release (outreach activities)
 - o May 11th
 - o Blog post - Jim
 - o News release - Jim
 - o Tech talks (Late May – June)
 - Getting started - Jim
 - Build a DS – Jim to talk with Iain/Cloud
 - Build a AS – Lenny
 - Getting started with Snaps – Canonical?
 - TSC
 - Dan to speak to Melvin about China Tech Talks
- EdgeX Ready
 - o Rodney to draft changes to EdgeX Ready wiki.
 - o Review wording and expand to all Device Services (support for V1 and V2)
 - o May not need rewording for V2 expansion. More open ended.
 - o Decision: change/update the program so that a device profile must be provided that is either new or an existing one that has been modified/added to
 - o Device virtual shouldn't be on the list of allowed profiles – we want “real” devices and “real” device profiles. Using REST or MQTT device profiles is ok – if modified to do something real world sensor/device/information upload.
 - o Tech Talk proposal – how to write a tech talk (with submission to EdgeX Ready)
 - o Layout of the EdgeX Ready Pages
 - Issue on EdgeX Ready page – missing image or something on Safari
 - EdgeX Users gets clipped in Safari
 - EdgeX button abnormal behavior
 - Workflow diagram out of alignment with what is on the Wiki.

- Hackathon

- PRC Hackathon – upcoming this year
- Joint – world-wide hackathon?
- Virtual event but with regional physical events
- NA, Europe, Taiwan
- Involve other LF Edge projects
- Dan to keep organizing with PRC members
- Jim to reach out to LF Edge/LF Edge Outreach
- Probably needs to be in the fall
- Probably needs an element of Face-to-face
