Topics

North-South ADR

<https://github.com/edgexfoundry/edgex-docs/pull/656>

- Reviewed comments by Tony Espy and Lenny Goodell. Also answered remaining questions around the message structure.
- Some work to do by Lenny/Jim on how to have EdgeX services (like app service) send message to core command (using internal message bus).
- Jim to update the doc and send out a notice for another review.

Device Functions ADR

<https://github.com/edgexfoundry/edgex-docs/pull/644>

- Delayed until re-reviewed in DS WG.

Increase in size of security elements (per Cloud message)

- Jim to get with Bryon on expectations, concerns or any ideas on how to improve
- Jim/James to get with Cloud to identify exact source(s) of the increases
- All to consider options/alternatives for how we provide for some type of executables without security packages if they are not needed

Farshid's recommendation on changes to ADR process

<https://github.com/edgexfoundry/edgex-docs/issues/695>

- Did not have time to discuss. Moving to the next meeting or to the planning meeting
