# LF Antitrust Policy Notice

EdgeX Foundry meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.

Examples of types of actions that are prohibited at EdgeX Foundry meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at <http://www.linuxfoundation.org/antitrust-policy>. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrave of the firm of Gesmer Updegrave LLP, which provides legal counsel to the Linux Foundation.

## Agenda

**Eran Harel, VP Business Development**

**AppCard - <https://appcard.com> :**

- Use cases and challenges that can be solved with technology for grocery stores and quick serve restaurants

# Integration challenges in the Grocery Industry

IoT Solutions  
Alliance

AppCard helps the independent grocers compete with digital and national retailers by giving them the tools to easily take actions on their data and effectively communicate with their shoppers in a personalized way.

Pinky is a nickname for an AI system composed of artificial neural networks and other machine learning approaches which are orchestrated and optimized via reinforced learning.

The network's architecture ensures that:

Coupon content is ranked for each shopper

Emails and Texts are delivered at the right time

Highly accurate prediction for next week sales

Automated campaigns personalized for each shopper

- i.e. "We Miss You!" campaign

# Pinky Prediction

Weekly Revenue Prediction:

# Future Personalization

Enhanced timing of sending offers based on predicted visit

Automated Product/Category recommendation upsell promotion

Subscription type reminder triggers (i.e. need more toilet paper)

Personalized pricing (potential integration w/ digital shelf tags)

Personalized weekly ad (can beta this soon)

Determine whether to send offer via text or email (or other)

Automated reduced spend promotion trigger

# EdgeX and start-up companies

EdgeX can solve the complexity of integration, simplify data sharing and collaboration and shorten time to market and implementations.

## Technical

- Limited resources
- Compatibility to tech stack
- Changes to the core

## Business

- Need to have target companies/partners as part of the ecosystem.
- Priorities - set by clients and revenues
- Lead generation and justify efforts based on associated revenue
- Cost
