Core Working Group Agenda (04-Oct-2018)

Attendees:

Old Business

- CBOR / Intel POC
    - Has everyone who's interested had time to review the discussion from two weeks ago?
    - Any further topics at this time?
- Node Red
    - Came up during TSC call in context of RulesEngine replacement
    - Sounds like IOTech is using this in-house
- Redis
    - Presentation from Andre last week
    - Ask for update if he's on the call

New Business

- Delhi
    - Code Freeze Oct 15th
        - Discussion RE: Security Group request for extension to Oct 22nd
    - Config V2 nearing completion
        - Export-distro, support-notifications remaining
    - New PRs
        - System Mgmt Agent #620
        - Support-scheduler service #616
        - Expecting Redis PR
        - Could really use some help in reviewing these.
    - Testing
        - Could use some help here as well
