

Core Working Group Agenda (25-Apr-2019)

Attendees:

Old Business

- CBOR
 - Benchmarking
 - Checksum (Toby's data)
 - Unmarshaling / Marshaling (Anthony's data)
 - Revisit this with the group
 - There is a trade-off in the above approach – latency versus memory
 - What is the proper use approach for the most common use case we expect (looking to Intel for this)
 - Need a decision on this today.

New Business

- None scheduled
