

Core Working Group Agenda (20-Sept-2018)

Attendees:

Old Business

- None

New Business

- CBOR
 - Emad Attia @ Intel has an image ingestion POC using EdgeX
 - To move forward, questions around
 - Possible dev resources from Intel?
 - Specifics on data requirements, storage?
 - Mechanics of exporting to cloud?
 - Prioritization for Edinburgh
- Config-seed
 - Location of Device Service configurations
 - How to make config-seed aware of them
 - How to build Consul service root key
- Core-command / core-data memory leaks
 - Refer to Jim's graphs
 - Pprof utilization?
 - Anyone with time to focus on this?
