

Core Working Group Agenda 05/17/2018 meeting

Attended by: Jeremy (LF), Eric, Trevor, Tingyu & Jim (Dell), Greg (Sixgill), Keith, Andy & Steve (IoTech), Ian & Tony (Canonical), Rodney (Beechwoods). Others may have joined the call after the roll was taken at the beginning.

Discussion and action items as a result of meeting in **RED**.

Old Business

DevOps items

- Jeremy – any issues/updates we need to discuss
- Lots of work going on to add patches to blackbox tests for Cavium Arm
- Building snapcraft Ubuntu images to Snap Store

Documentation Hosting

- Where to host?
 - Still working; host on LF infrastructure, need build process to deposit in appropriate place
- Andy – status of
 - training and guidance for new resources in the process of doc generation
 - record a training session and post to Tech Talks
 - Action Item for Andy – look at scheduling a Zoom session and record that for reference; looking at next two weeks.

DS Requirements Discussion

- Tony updated req's doc. What's next?
 - Latest available here:
<https://docs.google.com/document/d/1aMIQ0kb46VE5eeCpDlaTg8PP29-DBSBTlqeWrv6LuYk/edit?usp=sharing>
 - Request access from Tony
 - Final doc to be posted to Wiki soon
- What's a realistic schedule for SDKs?
 - SDKs won't be complete by California release dates.
 - Should have enough to start developing DS but full SDK won't be ready by California
- New spin off meeting coming soon
- Should DS & SDKs part of edgex-go or separate? Still to be determined
- Plan, schedule, and issues to be resolved in upcoming meeting and finalized by Jun 4 meeting

Document Translation

- Issue rests with board at this time.
- Accepting translation of documentation is welcome. Question is one of how is it reviewed and maintained. Options being considered:
 - Let the community update and if it doesn't stay up to date, it gets archived
 - LF pays for translation with project funds (non-scalable solution and how do we determine which languages to support?)

- A sponsoring company funds continual support for certain language translation of choice (ex: Samsung funds maintenance of Korean translation).
- Will drop this topic for now until Board has provided resolution.

Performance Testing

- Keith – provide information around possible IoTech performance tests contribution by CA F2F meeting

EdgeX UI

- Jim working with VMWare and others to start a project group under Core WG. No news yet.

Palo Alto F2F

- Please sign up (connect with @BPreston) if you are going to be there (in person or on line)
- **Please visit**
<https://wiki.edgexfoundry.org/rest/documentConversion/latest/conversion/thumbnail/14123075/3> and provide feedback to agenda and topic list for next meeting
 - Review Delhi scoping – any early disagreement with proposed in/out scoping? Anyone wants to advocate adding/removing something
 - Review Architect Tech Debt – any early disagreement with proposed topics? Calls for additions/deletions from that list
 - Review Architect Enhancements – any early disagreement with proposed topics? Calls for additions/deletions from that list

New Business

RAML / Testing / Java support

- Two open issues right now that need resolution.
 - <https://github.com/edgexfoundry/edgex-go/issues/201>
 - <https://github.com/edgexfoundry/edgex-go/issues/211>
- Recommendation: Keep Go services as is, adjust the RAML, fix Java (or file issue against Java)
- **Ex: We want the Go to return proper status**
- **All in agreement. Need to update the tests as well**

TSC Working Group Chairs

- Each working group elects its own chairperson. That person serves on TSC.
- WG voter lists coming soon.
- Start with Calls for nominations for chairs to WG represented on this call:
 - Core Working Group Chair
 - Nominating Trevor Conn (Dell) to take my place
 - Test QA/Chair
 - Nominating Andy Foster (IoTech) to continue
 - Applications WG Chair
 - Nominating Janko Isidorovic (Mainflux) to continue
 - DevOps WG Chair
 - Nominating Jeremy Phelps (LF) to continue

- DS/SDK WG Chair
 - Nominating Steve Osselton (IoTech) to take Tony's place
