

Core Working Group Meeting Notes (15-Nov-2018)

Attendees:

Old Business

- Progress Updates
 - Logistics RE: blackbox tests
 - Combining repos, etc – No progress from my end due to last minute Delhi work and other priorities
 - No changes to Contributor Guidelines either (*Trevor*)
 - Although, probably won't really start enforcing this until we get into Edinburgh deliverables in earnest.
 - Decoupling models from Mongo types (PR 779)
 - On outdated Mongo driver, it looks like a community supported fork is available here
 - <https://github.com/globalsign/mgo>
 - Should we investigate an upgrade?
 - If so, I can create an issue to track it. Who will do the work?
 - *Question regarding contract model definitions*
 - *We would like to not include empty fields in the JSON serialization of contracts*
 - *This may be handled somewhat by PR 789*
 - *Update of RAML (??)*
 - *No objection to direction from community*
 - Logging as key/values via GoKit (PR 787)
 - *Tony question – Is it possible to conditionally display fields within the log entry?*
 - *Lenny asked about underlying log provider in GoKit (log-rs? Intel using this)*
 - *Telegraph log parser*
 - <https://www.influxdata.com/blog/telegraf-correlate-log-metrics-data-performance-bottlenecks/>
 - *No objection to direction from community*
 - *Needs further work to develop additional formats, etc*

New Business

- Abstraction Layer for Consul (Issue 797)

- *Lenny from Intel volunteered*
 - *Add to the above list for progress updates*
- CBOR?
 - *Lenny from Intel volunteered*
 - *Neely from Intel working on CV*
 - *Considered higher priority*
 - *(Jim from Intel assigning resource later this month)*
 - *Possibly need to re-spin sub-project group*
 - <https://wiki.edgexfoundry.org/display/FA/Core+Working+Group>
 - *Contains previous notes on CBOR design and meeting recordings*
- **NO MEETING NEXT WEEK DUE TO THANKSGIVING IN US!**
