Old Business

- Integrating Security Services w/Core Services
    - Global configuration in Consul
        - Question for the group regarding absence of actual configuration file driving this.
    - *Daniel's current PR can be reviewed and possibly merged*
    - *Follow-up PR/issue will support configuration.toml backing for global settings.*

New Business

- Service Initialization Code De-duplication Proposal (Michael Estrin)
    - https://github.com/edgexfoundry/edgex-go/pull/1751
    - *Positive reception from community*
    - *We will have a follow-up in next week's Core WG for more discussion after time to allow review of the above PR by the community*
- Any new business?
