Napa 3.1.0: DevOps Scope

Release: November 2023

- ~~• Named/Vanity (i.e minor 3.x) tag automation on release.~~
- ~~• Generate GitHub releases on tag creation via GitHub actions.~~
- ~~• POC gotesttools/gotestfmt for better unit test output in Jenkins pipelines.~~
- Address missing commits in changelog due to issue with “!” in the commit type. Bug with <https://github.com/git-chglog/git-chglog/issues/235>
- Fully Automate DockerHub description/overview updates.
- Go version upgrades (if applicable).
- Misc release automation cleanup. Need to followup with Bill and Lenny on this
