

EDGE X FOUNDRY™

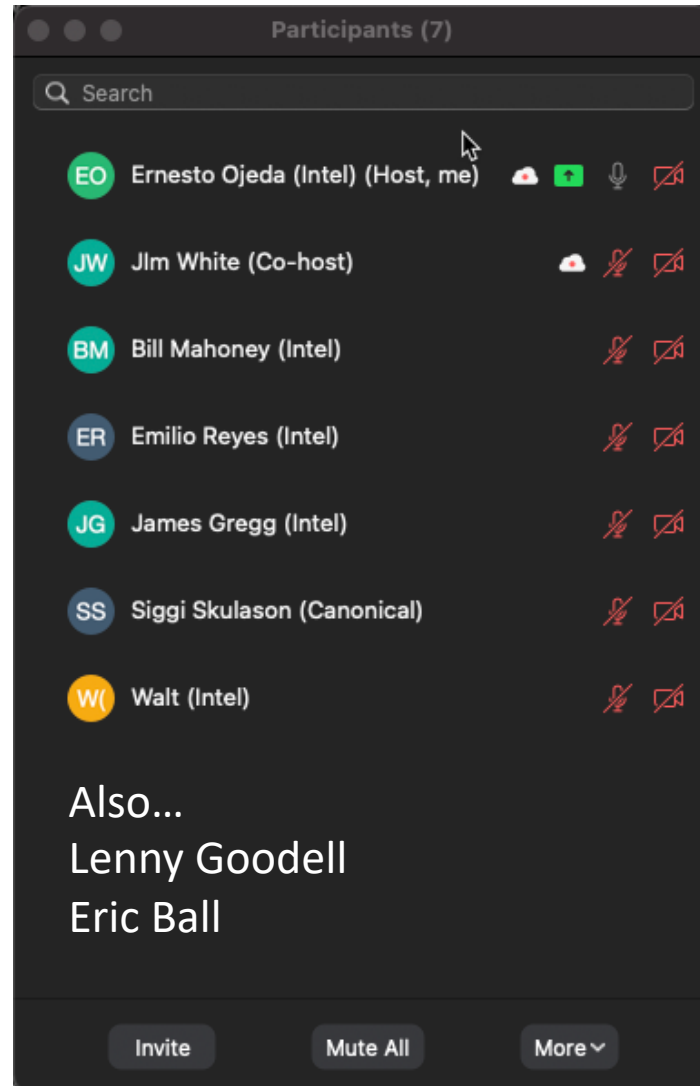

DevOps Working Group

Thursday December 3, 2020

Agenda

Time	Topic	Owner
5-10 Min	DevOps Updates (Ireland)	Ernesto
10 Min	DevOps Ireland Scope	Venkat
5 Min	AOB / Opens	All

Attendees

A screenshot of a Zoom meeting participants list window titled "Participants (7)". The window has a search bar at the top. Below it, seven participants are listed, each with a circular profile picture, name, and affiliation. To the right of each name are icons for video, audio, and chat. At the bottom of the list are buttons for "Invite", "Mute All", and "More".

Participant	Role	Video	Audio	Chat
EO Ernesto Ojeda (Intel)	(Host, me)	On	On	On
JW Jlm White	(Co-host)	Off	Off	Off
BM Bill Mahoney	(Intel)	Off	Off	Off
ER Emilio Reyes	(Intel)	Off	Off	Off
JG James Gregg	(Intel)	Off	Off	Off
SS Siggj Skulason	(Canonical)	Off	Off	Off
W(Walt	(Intel)	Off	Off	Off

Also...
Lenny Goodell
Eric Ball

Buttons: Invite, Mute All, More

DevOps WG Update (Ireland)

- **Pipeline Enhancements**
- [#252](#) [In Progress] Build Snaps natively on Ubuntu ([#2899](#))
- [#302](#) [Planning] Dockerfile clean up in some services
- [#102](#) [Planning] Docker image naming
- **Other**
 - Go mod versioning. Not vanity tags because we are just aligning to existing pre-release/release process. Need to if we need to create 1.3.0 tags across all go modules.
 - Need to identify where 2.0.0-dev.x git semver tags are needed

Ireland Scope

- ~~Docker Security bench - 🧑 Medium (Not in scope)~~
- * Docker image naming - 🧑 Small
- * Dockerfile clean-up in some services - 🧑 Medium
- Tag/Update description of Docker Hub images to indicate which are out of support – 🧑 Small
- Clean up DevOps wiki pages - 🧑 Small
- Research Semantic versioning git-semver replacement - 🧑 Medium
- Developer enablement: Update documentation for pre-built pipelines - 🧑 Medium
- Automated change log creation - 🧑 Medium
- Repo badges for EdgeX repos - 🧑 Large
- Automation around pinning image versions in developer scripts (stretch)

Notes

- Jim to work with Ernesto, Bill and Lenny via Slack to identify the Go module patch versions to tag as 1.3.0
- After 1.3.0 tag is generated, need to create 2.0.0-dev pre-release tags
- Ernesto to get a list of repositories that need to be bumped to 2.0.0-dev.x pre-release tags to Jim and Lenny to review.
