ATTENDEES

Celine Hsu (IOTech)

Felix Ting (IOTech)

Jim White (IOTech)

Lenny Goodell (Intel)

Lindsey Cheng (IOTech)

Progress

DONE

- Several devices have been upgraded to go-1.21, Linter1.54.2 and Alpine 3.18.
- [CI] Added automated release workflow on tag creation.
- [device-usb-camera]
 - upgrade some dependencies for flag feature [#289](#)
 - fix: none mode being seen as invalid option to RtspServerMode [#285](#)
- [device-sdk-go]
 - Consume latest go-mod-bootstrap with RemoveHosts flag [#1510](#)
 - [URI4Files] Expand definition of the provision watchers and profiles URI index file [#1483](#)
 - fix: Change URIs for provision unit tests to go to edgexfoundry [#1514](#)

IN PROGRESS

- [device-sdk-c]
 - if the device custom protocol contains '&', '<', '>' characters, the devsdk_add_device_callback, devsdk_update_device_callback, media_server_remove_device parses protocol incorrectly [#465](#)
 - Implement loading of common config from config provider [#481](#)
 - Add command line/environment flag for commonConfig [#485](#)

- [device-usb-camera]
 - Get stream URI not picking up rtsp server address from config file with rtsp server mode set to 'external' [#288](#)

- [device-sdk-go]
 - Device Last Connected [#1470](#)

NEW ISSUE

- [device-sdk-go]
 - github.com/edgexfoundry/device-sdk-go/v2@v2.2.0/pkg/models/commandrequest.go Attributes concurrent map writes!!! [#1508](#)

Device WG [\[Project Board\]](#)

Other Business

- New CAN device service update
 - Initial PR review in progress [#1](#)
