

Device and Device SDK Working Group

Notes for June 14 2021

New device services

- RFID/LLRP – release on hold pending testing with rfid inventory service
- GPIO – DevOps setting up build pipeline

C device services

- PR in review for CoAP v2 update
- Grove, BACnet to follow

Go device services

- MQTT configuration being reworked – Bruce has suggested changes
 - Should not have multiple clientIDs
 - Incoming / Response topics should not be per-device
 - Lenny to update issue #158
- 2 straightforward issues on device-camera being addressed
- All other issues are post-2.0

Next meeting

- ~~3 weeks from now~~
- Post-meeting note: next meeting will be July 12th
