

Device and Device SDK Working Group

Notes for Apr 26 2021

Attributes typing

- Work ongoing in core to allow arbitrary typing for device resource attributes

Device Service for Thread protocol

- HCL team potentially developing this

SDK issues (Golang)

- #589 / #648 (Structured config) – Done: can be closed
- #574 (Multiple Event generation) – Need to clarify requirements vs what can be done currently
- #649 (ProtocolProperties validation) – Defer: not for Ireland
- #337 (Snap for device-simple) – Close (Tony to verify)
- #689 (Secure MessageBus) – Requires core support – TBC
