Device and Device SDK Working Group
Notes for June 8 2020

Updates

- Go SDK needs to take an updated go-mod-bootstrap
- Also exhibits issues with ValueDescriptor management, see edgex-go #2590, #2526
  - For 1.2.2 we will increase startup timeouts
  - Full fix for Hanoi
- CSDK 1.2.1 released
  - device-grove-c update in progress
- New -holding repository device-rfid-llpr-go created

AOB

- Issue with device-mqtt: crashes on startup if unable to initialize broker connection
  - Configurable retries being added, also will log an error and exit gracefully on failure
