

Keys for System Management Metrics (#2: Aggregated)

→ Sample **request** for Metrics:
`/api/v1/metrics/edgex-core-command,edgex-core-data`

→ SMA “assembles” the response in a generic, type-less structure:

```
type MetricsRespMap struct {  
    Metrics map[string]interface{}  
}
```

Response

```
{  
  "Metrics":{  
    "edgex-core-command":{  
      "CpuBusyAvg":2.224995150836366,  
      "Memory":{  
        "Alloc":1403648,  
        "Frees":1504,  
        "LiveObjects":18280,  
        "Mallocs":19784,  
        "Sys":71891192,  
        "TotalAlloc":1403648  
      }  
    },  
    "edgex-core-data":{  
      "CpuBusyAvg":2.854720153816541,  
      "Memory":{  
        "Alloc":929080,  
        "Frees":1453,  
        "LiveObjects":7700,  
        "Mallocs":9153,  
        "Sys":70451200,  
        "TotalAlloc":929080  
      }  
    }  
  }  
}
```
