

# EdgeX Challenge Shanghai

Edgex Challenge Shanghai 2020 is an international hackathon event on EdgeX, co-hosted by LF Edge and STCSM (Science and Technology Committee of Shanghai Municipality, <http://stcsm.sh.gov.cn/>). It's jointly organized by Intel, Innospace, VMware, Dell Technologies, HP, Canonical, ThunderSoft, and supported by Tencent and IOtech.

The event aims to build a learning and sharing platform about deploying IoT & EdgeX Foundry to heal industry problems along with digital transformation. We focus on pain points of IoT industries, and EdgeX use cases in retail, hospitality, banking, education, manufacturing, energy, cities/campus, and other vertical segments. Through creation, development and optimization of EdgeX based solutions, the participants are required to effectively combine technologies with industry best practices to enable real case demos, and commercial solutions if possible.

**Time:** Jul 3rd ~ Oct end, 2020

### Tracks:

- Commerce (Retail, Hospitality, Banking, Education, healthcare, cities/campus, ...),
- Industrial (Factories, Power, Oil/Gas, Utilities)

### Judge Criteria:

Criteria	Preliminary Round	Final Round
Creativity, use of Computer Vision	30	30
Impact, Viability, and Usefulness	30	30
Simplicity	30	30
Wording & showcase	10	10
# of votes on social media (additional points for final phase)		max 20 points

### Prizes:

Prizes	Commerce	Industrial	Special prize for EdgeX+CV
1st	20,000 RMB *1	20,000 RMB *1	10,000RMB*2
2nd	10,000 RMB *1	10,000 RMB *1	
3rd	5,000 RMB *1	5,000 RMB *1

### List of teams and use cases for 2nd round contest:

In the preliminary judging stage, judges and experts diligently reviewed each of the submissions based on the criteria set ahead of the EdgeX challenge. 10 teams have been selected from 27 in the Commerce track, 7 teams selected from 13 in the industrial track. These 17 teams will enter next stage of the EdgeX challenge. On Friday afternoon, July 24, the organizers held an online webinar with expert judges and the teams, to witness [announcement of the short list](#).

- Commerce track

#	Name of the team	Use Cases

c03	AI Cooling	Building automation
c05	NT fighting force	POS with weight scale & Cameras
c07	Starlink team from <a href="http://JD.com">JD.com</a>	Retail store heatmap & monitoring
c08	Sugarinc Intelligence	Smart building
c10	Five Card Stud fighting force	Automobile 4S (sales, service, spare part, survey) store
c16	USST, YES!	Retail store edge
c18	HYD Miracle Innovation	Apparel store edge computing
c19	Breakthrough Labs	Scenic Intelligent Navigation
c26	i-Design	Edge-cloud based far ocean intelligent logistics/monitor
c27	DreamTech	Mortgage assets monitoring based on blockchain +edge computing

- Industrial track

#	Name of the team	Use Cases
i01	Baowu Steel	Defects detection in steel manufacture
i06	Jiangxing Intelligence	Intelligent Edge Gateway for Industrial
i07	VSE	Drivers school surveillance & analytics
i08	CyberIOT	Guardians of electrical and mechanical equipment
i09	Smart eyes recognize energy	CV based intelligent system of meters recognition
i10	Power Blazers	autotuning system for orbital wind power system
i13	EVS	Smart warehouse

### Training Resources:

Online training sessions on EdgeX for EdgeX Hackathon prospective participants

- 1) Feb 28th : 14:00-15:00, Create EdgeX new Device Services,by VMware ([Registration, English](#)), ([Playback](#))
- 2) Mar 6th: 14:00-15:00, Writing EdgeX export service, and scheduling plan,by VMware ([Registration, English](#)), ([Playback](#))
- 3) Mar 13th: 14:00-15:00, Add devices and service monitoring in EdgeX, by ThunderSoft ([Registration, English](#)), ([Playback](#))
- 4) Mar 20th: 14:00-15:00, Use EdgeX device service, Nodered,by IOTech ([Registration, English](#)), ([Playback](#))
- 5) Mar 27th: 14:00-15:00, Use OpenVINO with EdgeX for Edge Inference,by Intel([Registration, English](#)), ([Playback](#))
- 6) Apr 2nd: 14:00-15:00, EdgeX Hackathon station setup(HW,SW, Tools, etc.), by Intel ([Registration, English](#)), ([Playback](#))
