EdgeX Foundry Technical Steering Committee

The Technical Steering Committee (TSC) is a committee composed of technical leaders from the open source project responsible for oversight of the technical codebase, the technical community and release process.

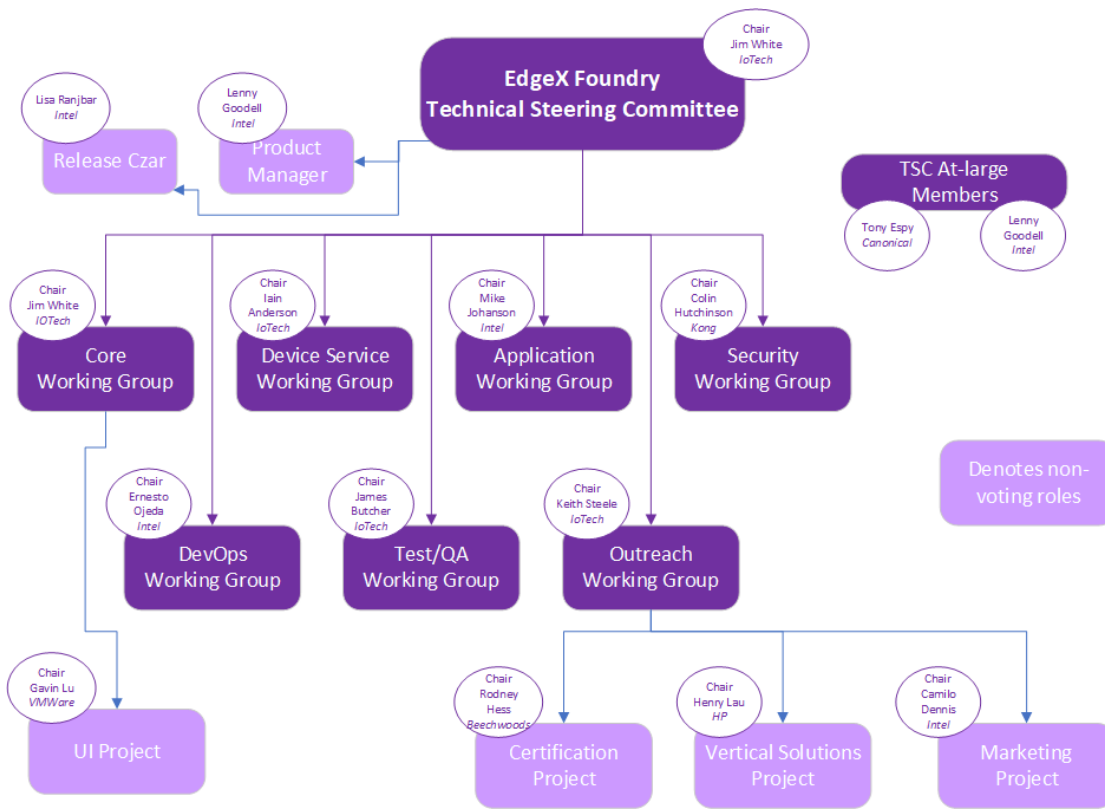

The TSC is responsible for:

- coordinating the technical direction of the EdgeX Foundry Project, including the architecture and projects to achieve the Mission and Scope of the EdgeX Foundry Project;
- approving project proposals (including, but not limited to, incubation, deprecation and changes to a project's charter or scope) in accordance with a project lifecycle document to be developed, approved and maintained by the TSC;
- designating top level projects, Umbrella Projects and facilitating synergy, collaboration and technical coordination (API, data Models etc.) across all projects;
- creating sub-committees or working groups to focus on cross-project technical issues or opportunities;
- coordinate technical community engagement with the End User (as defined in Section 6 of [Project Charter](#)) community with respect to requirements, high level architecture, implementation experiences, use cases, etc.;
- communicating with external and industry organizations concerning Project technical matters;
- appointing representatives to work with other open source or standards communities;
- establishing community norms, workflows or policies for releases;
- discussing, seeking consensus, and where necessary, voting on technical matters relating to the code base that affect multiple projects; and
- establishing election processes for Maintainers or other leadership roles in the technical community that are not within the scope of any single project.

Voting

In various situations the EdgeX TSC shall hold a vote. These votes can happen on the phone, email, or via a voting service, when appropriate. TSC members can either respond "agree, yes, +1", "disagree, no, -1", or "abstain". Decisions by vote at a meeting require a majority vote, provided quorum is met, based on the charter (see [5\(c\)](#)). An abstain vote equals not voting at all.

Working Groups

The TSC has created the following working groups:

- [Applications Working Group](#) chaired by Mike Johanson
- [Core Working Group](#) chaired by Jim White
- [Device and Device SDK Working Group](#) chaired by Iain Anderson
- [DevOps Working Group](#) chaired by Ernesto Ojeda
- [QA/Test Working Group](#) chaired by James Butcher
- [Security Working Group](#) chaired by Colin Hutchinson
- [Outreach Working Group](#) chaired by Keith Steele

Tony Espy and Lenny Goodell serve at "at large" TSC representatives.

Meeting Time

TSC meetings are open to the public.

The next TSC meeting will be on May 12 at 8am PT (find your local time [here](#))
