- **Release Design Decisions**

The Jakarta Release is version 2.1 (a minor release on the second major release - **Ireland** - made during the summer of 2021). It is therefore backward compatible with Ireland. It was released on November 17th, 2021. It is the 9th overall community release of EdgeX Foundry and the communities first LTS release. Jakarta is consider a stabilization release.

The following slide deck outlines more details of the LTS and Stabilization Release

---
