

EdgeX Security Issue Template

Title: EdgeX <title> Technical Advisory

created by [EdgeX](#) Product team <link to full document> <date>

Title: EdgeX Security Advisory: <ID> <Brief Description>

Date: <date>

ID: (same as in title)

Affects: One or more releases, specified as a range, or prior to a given release. Example Fuji or Edinburgh:Fuji. Sub-projects in the same.

Description: Issue description and its ramifications.

Score: Severity, Risk

The associated risk could be lower than the severity by virtue of mitigation factors in the usage context.

Workaround/Fix: Typically release specific patch sets, one per affected release.

Credit: Who spotted the issue and their affiliation. Thank you!

References: to the reported issue, patch sets, related issues etc
