Jakarta Release

Delivery: ~ Nov 2021

Namer: Trevor Conn (Dell)

The Jakarta release is anticipated to be a bug-fix-only release; pending the delivery of the V2 APIs in Ireland. It should be a dot release (2.1) on top of the Ireland 2.0 release. Jakarta is the first planned Long Term Support release.

What's Coming in Jakarta

The deck below comes from the June 2021 Jakarta planning meetings
