

2022-10-27 Meeting notes

EDGE X FOUNDRY

LF Antitrust Policy Notice

Linux Foundation meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.

Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at <http://www.linuxfoundation.org/antitrust-policy>. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrave of the firm of Gesmer Updegrave LLP, which provides legal counsel to the Linux Foundation.

Attendees

[Arnaud J Le Hors](#)

[Joe Pearson](#)

[Jim White](#)

[Rodney Hess](#)

[David C Martin](#)

Goals

- Create a demo that we can run in our companies labs and use to demonstrate ORRA's value proposition
- Leverage the LF Edge lab infrastructure to set up and run an ORRA instance
- Provide a stable, supported definition of all ORRA components
- Let people bring their own use case and experiment with the platform

Discussion items

Time	Item	Who	Notes
5mn	Reference Architecture Diagram	Arnaud	Added to the list of deliverables on ORRA main page ORRA Reference Architecture Diagram 20221027.png
10 min	Any other update?	Joe	Accuknox just joined the Open Horizon TSC, and they are an Adopter. They are the primary Maintainers of KubeArmor and Cilium in CNCF. We may want to invite them to ORRA to assist with any runtime and network security issues. (Ron Victor < ron.victor@accuknox.com >, Rahul Jadhav < r@accuknox.com >) Based on their integration work , we could have them run a security scan of the demo and generate a security policy and then enforce it to both ensure runtime security of an example and to validate that our approach follows best practices for secure workloads. In fact, the results of this would form a great webinar topic.

5mn		Joe	Hacktoberfest 2022 begins Saturday. This is an opportunity to attract new contributors to ORRA and EdgeX Foundry. Let's: <ol style="list-style-type: none">1. Create more issues2. Label relevant issues "hacktoberfest"3. Ask EdgeX Foundry to add "hacktoberfest" topic to our repo (today).
-----	--	-----	---

Action items

- Talk to potential Adopters and see if they have any pressing use cases they would like to address with ORRA
- David C Martin to write down a one page description of the Architectural Diagram to publish along with the diagram
- Publish the reference architecture diagram
- [Joe Pearson](#) to follow up with Accuknox to discuss a possible integration with the ORRA demo
